SR.9.120.3400	3400	1571	1644	5185 ltr.	3125 kg

*Skeleton buckets for even more powerful machines, please contact one of our salesmen*

## Characteristics of Skeleton Bucket general purpose:

- Intended for normal activities such as loading, reforming, sorting and sieving
- Low cutting resistance allows stronger penetration and creates a better filling of the bucket
- Strong construction of high quality materials ensures lower wear of the bars
- Available with removable sides, within-plate or teeth
- Several other versions and widths possible on request
